

Assist . . President Roosevelt

What has President Roosevelt done for YOUR benefit?
Are you better off today than you were on March 4, 1933 when he took office?
Do you feel grateful to the President for what he has accomplished?
Each voter in Texas is asked to show his appreciation by making a donation to the national campaign fund in order to re-elect President Roosevelt.
An average of 20 cents for each voter is asked in Texas.
This means \$404 from Randall county. No concerted action has been taken to raise this money, but donations may be made with Guy Harp at the post-office; Levi Cole at the Bank; or Clyde Warwick, county chairman.
Several citizens have made donations, but the state committee is asking for donations at once. The campaign has only a month to go. The President needs money with which to fight the battles of Democracy.
Please consider your condition to pay as compared with four years ago, and help the President this week with a small campaign donation.

MORE RAIN IS FOLLOWED WITH COLD - FROST

Quarter Inch of Moisture Falls Sunday in Can- yon, Followed by Cold Wave

3.25 IN SEPTEMBER

Moisture For Year Is Far Below Normal, Reach- ing a Total of 12.38 Inches in Canyon

A quarter inch rain, cold weather and a couple of frosts were dished up by the weatherman for the Panhandle this week.

While frost covered the ground Tuesday and Wednesday mornings, consensus of opinion is that no great damage was done. A heavy killing frost now would greatly damage the feed crop which has been growing rapidly since the recent rains.

A light rain fell throughout Sunday. While the moisture amounted to only a quarter inch, the fact that it came slowly on top of the recent rains made it appear to be much greater.

The fields of the county are thoroughly soaked. No wheat planting will be possible for several days, and it will likewise be impossible to cut feed.

The temperature Sunday night was 39 degrees above zero; Monday night it dropped to 38 degrees; Tuesday night the lowest was 40 degrees.

Including the rain of Sunday, the total moisture for the month of September was 3.25 inches. This brings the total for 1936 up to 12.38 inches.

Wolflin Golf Team Will Play Canyon Team Here Sunday

The Wolflin team from Amarillo will visit the Canyon Club Sunday afternoon for a return match.

The teams recently played on the Wolflin course, with the Amarillo players winning the match.

Local players are urged to be at the golf course at 1:00 o'clock Sunday afternoon to entertain the visitors.

Buffaloes Will Face Experienced Rams Here Friday

Sickness and Injuries Face Buffs; Rams Bring Ex- perienced Crew for the Game Here

With two games safely tucked away, West Texas Buffaloes have turned their attention to the hard battle scheduled for Friday night on the home field with the T. W. C. Rams of Fort Worth.

Injuries and sickness reigned supreme in the Buffalo camp as practice started this week for this important battle.

In the first place, Coach Al Baggett was stricken with kidney trouble Thursday on Buffalo Field, and was rushed to the hospital where he was under treatment until Friday afternoon. He was allowed to come to Canyon to direct the game Friday night with the Miners, but returned to the hospital Friday night to remain until Monday afternoon. He is feeling fine again, and is apparently recovered from the illness.

Illness Among Players

Six of the first string men were under the weather with minor ailments and injuries to start the week's drill.

Si Marchbanks, big center from Childress, was probably the most seriously injured in the Miners game, and will likely be on the sideline Friday night.

Oscar Hinger, Vernon Johnson, Captain Leo Jackson, and Toby Waggoner have all been under the weather, but apparently are recovering sufficiently to see service again Friday night.

The Buffs were cheered Tuesday by the return of George Caviness to the practice field. An injury during the first week of practice promised to keep the big linesman from the game throughout the season, but he will likely be able to play some Friday night. A shoulder injury will be closely watched by the coaches.

Rams Are Tough

The Fort Worth outfit is one of the toughest outfits that will play here this year. In spite of defeats by Texas Tech and McMurray, the Rams have a brilliant aggregation of players.

Coach Rhome has 19 lettermen from last year's crew, which wrecked the Buffs in a thrilling game. Added to these experienced players, the Rams have a number of brilliant high school and junior college players who are determined to put the Buffs on the losing side of the ledger.

The game will be played under the lights at 8:00 o'clock.

Morrisset Talks About Functions of Utilities Co.

J. B. Morrisset, manager of the Texas Utilities Company, talked at the luncheon of the Canyon Rotary Club Tuesday on the work of his company, in a classification talk.

"Service must go on," stated Mr. Morrisset as he asked the people to think of the linemen of the utilities company when storms are raging and these men have to risk their necks keeping up the lines. Mr. Morrisset recalled incidents in the 14 years that he has spent in the various branches of the utilities business.

History of utility expansion was traced from 1909 when Malone Bros. built lines from Plainview to Lockney and Lubbock. In 1915 the Texas Utilities was organized and bought this property, and the expansion program was started until 52 towns are now served. Twenty of these towns have been organized since 1915.

In 1924 the Canyon plant was bought and the high line extended here. At the present time Canyon is connected with the high line from the south, one from the north, one from the west, in addition to the standby plant located in Canyon.

In 1917 the company had 717 customers; in 1920, 1372; in 1936, 14,652.

Clock Acquired In 1870 Gives Service For E. C. Penick

E. C. Penick has an eight day clock which has been running faithfully since his father bought a farm in Morgan County, Georgia, back in 1870. The clock went with the household furniture Mr. Penick bought, and therefore there is no record of the age of the instrument.

Mr. Penick had the clock up town Saturday for cleaning, and it gives excellent service.

In addition to this heirloom, Mr. Penick has the solid walnut bed in which he was born.

Local Teachers Given Key Jobs At State Meet

Five teachers of Canyon have been selected as key-representatives of the West Texas State Teachers College to the great banquet of the Federated Ex-students of the Texas State Teachers Colleges which will be held at Fort Worth, Nov. 27 in connection with the meeting of the State Teachers Association.

Preparations are being made to accommodate 2500 at this banquet which will probably be the largest ever held in the state. Lieutenant Governor Walter Woodul, President J. A. Hill, and John H. Gregory of McAllen will be the speakers on a program which will represent the interests of the seven teachers colleges and their thousands of ex-students throughout the state.

Miss Fannie Sue Brasuel, Mrs. Lee Johnson, Supt. Irby Carruth, Miss Anna I. Hibbets and Prof. F. E. Savage were named as key people from Canyon.

8 Pheasants Are Given Palo Duro Park by Rev. Hicks

Rev. J. R. Hicks has given eight pheasants to the Palo Duro State Park as the start for a flock of birds. Five hens and three roosters were given by Rev. Hicks.

A place is being prepared for the young birds in the Park so that they will be protected. Col. Steve Riding, one of the foremen, is looking after the pheasants and will see that they are protected.

Banquet Speakers Thurs- day Night Talk of Needs of Improvements In Canyon

MORE CIVIC PRIDE

City Park Would Be a Great Asset — Better Lights are Needed in Business Houses

Fifty citizens of Canyon gathered Thursday night to discuss plans for making Canyon a better place in which to live. A dinner was served at the Methodist church, sponsored by the Canyon Chamber of Commerce.

W. A. Warren presided, urging that citizens confer with the Chamber of Commerce, and to assist in its work by making suggestions as to the steps which may be taken to improve local conditions.

Mr. Warren is of the opinion that Canyon should be sold to the people as a residential and educational center. The schools, churches, fine water, paved streets and highways offer the sort of inducements which would appeal to people seeking a good town in which to live. Mr. Warren urged that local leaders first sell the people of Canyon on the advantages to be found in Canyon, and then join hands in selling the outside world on the possibilities of this little city.

More Civic Pride

Canyon needs more civic pride, believes Rev. J. O. Quattlebaum. He outlined how easy it would be to improve Canyon with more trees, more grass, painted homes, and cleaner streets and alleys. Canyon has every facility to make these things possible. Canyon will always have good business, but business may be improved if the town is more attractive.

Mr. Quattlebaum stated he drove over Canyon on Thursday just to observe conditions. The greatest need of improvement was in the alleys. Weeds are growing in the alleys; trash barrels, and piles of rubbish are to be found in all parts of the town. The alleys are very unsightly. The speaker emphasized the custom of the English people in making their back yards as clean and attractive as their front yards, and believes that Canyon people could profit by following this custom.

Underpass East Depot; Contract Let This Month

State Highway Depart- ment to Let Contract on Oct. 19-20 for Construc- tion in City

Contract for construction of an underpass on highway 33 just east of the depot will be let by the State Highway Commission on Oct. 19 or 20.

The underpass has been under consideration for several months, and plans were worked out between the City Commission, the Santa Fe Railroad and the Highway Department. The latter will have charge of the construction.

This underpass is a part of the national program to eliminate all of the grade crossings possible in the nation. The federal government has allotted money to the highway department for this purpose.

While a contract will be awarded to the lowest bidder on the project, it is expected that labor will largely be drawn from local WPA rolls.

Savage To Tell Of Experiences During Summer

Supt. F. E. Savage of the Demonstration School will be the assembly speaker at the college Saturday morning at eleven o'clock.

Mr. Savage will tell of his experiences while a student in New York University. All townspeople who are interested are invited to be present.

Tuesday, Oct. 6, Rev. Howard Williams, pastor of the First Baptist Church, Amarillo, is expected to be the assembly speaker. This program is also open to the public.

Sheriff Bob Barnett returned Monday from Corpus Christi, returning Edward "Buddy" Hollon who is charged with robbing C. M. Buckner in the north part of the county last year. Mr. Barnett was forced to detour on account of the floods in central and west Texas.

Mass Meeting Held Mon- day Night Is Attended By Many Interested In Building Dam

ASK FEDERAL AID

Chamber Commerce and Commissioners Court to Seek Data Regarding the Dam

Citizens of Randall county instructed the Chamber of Commerce and Commissioners Court to investigate the possibilities of a dam on the Tierra Blanca at a mass meeting held Monday night. About 50 citizens gathered at the court house to discuss the proposal which has been in the minds of local citizens for some time.

It is proposed to seek federal aid in building a great reservoir south of Umlinger which would be a play ground as well as provide water for irrigation and to feed the balance of the Tierra Blanca.

W. A. Warren, president of the Chamber of Commerce, presided, stating that his organization has been discussing the possibilities of such a dam for some time.

S. H. Condon told of his visits to states which had built such dams and the wonderful results in attracting people. Indiana, Missouri, and Colorado are notable examples. Mr. Condon believes that this dam would fit into the program of the government for water and soil conservation. In Texas he pointed to the examples of Dallas, Fort Worth, Brownwood, Sweetwater, Wichita Falls and Abilene. He believes that the Tierra Blanca offers the greatest opportunity in Northwest Texas.

Bush Approves Plan

James A. Bush of Amarillo, extensive land owner of the county, approved the plan, and believed that steps should be taken to conserve the water.

Dr. C. E. Donnell owns land in the valley which would form the lake. He stated that many years ago it was pointed out to him that some day a great lake would be formed in this valley, covering possibly 20 sections. He has thought of the plan for several years, and highly approves it although it would deprive him of the finest grazing land in the county.

Others Approve

Other land owners present approved the plan, including Mrs. Henry Beckman, I. C. Jenkins,

TEXAS FOR LANDON?

An advertisement was printed in last week's issue of The News by the Jeffersonian Democrats of Texas, announcing that Texas would go for Landon.

The News received a check for printing this paid advertising, and takes for granted that the DuPonts are pouring money into Texas as they did into Maine. So far as The News is concerned, we are delighted to have a hunk of this Republican money, since the drought has badly reduced advertising revenues for the paper.

However, we are fearful that the Republicans are wasting some good money when they make a drive to carry Texas for Landon.

A lot of Texans were induced to vote for Hoover eight years ago because Al Smith was a dripping wet and a Catholic. Texas went Republican in that election, but the bitter results of that election are still fresh in the minds of the people of Texas. Now we have Al Smith, who was honored by the Democratic party, on the other side of the fence, campaigning for the Republican candidate. So far as the people who voted against Al Smith are concerned, they do not regret their vote; they are ashamed that a man who has so often been honored by his party should now turn traitor to the party which had done so much for him. So far as Al Smith's political influence is concerned, it is nothing. He is now a hireling for the corporate interests of Wall Street; an ingrate and outlaw so far as his party is concerned; a renegade and an ungrateful slanderer of the principles of decency so far as friendship is concerned. He carries a chip on his shoulder because the Democratic party choose Roosevelt instead of himself to lead the ticket four years ago, after he had been so badly rebuked at the polls eight years ago.

But that's that, so let's look at the Jeffersonian Democrats.

Evetts Haley heads the movement. Haley is a mighty brilliant young man who has many friends. So far as politics is concerned, he is a kindergartner who has allowed his prejudices to warp his common sense.

Looking over the list of Jeffersonian Democrats of Texas reminds one of the DuPont crowd of the East. The names of many are

WASHINGTON LETTER

Ballyhooists Sing Swan Song
of Whoop and Holler Campaign

BY SPECIAL CORRESPONDENT

WASHINGTON.—Old line politicians bemoan passing of the "old-fashioned" campaign. They have a burning nostalgia to see the party boys carrying the torch once more. They believe a bunch of "sissies" are directing fire along today's political front.

But there are many less sentimental observers who credit both sides with more craft than ever before displayed by politicians of national prominence.

One of the few campaign traditions still honored is the use of slogans. The Republicans have "Now for a Landon-slide" and "Say It With Sunflowers." Democrats have contributed "Continue Roosevelt and Recovery" and "Roosevelt knows the way; Follow him today." Members of the Republican National Committee say they will distribute about 30,000,000 sunflowers before election. Democrats aim to pass out 10,000,000 Roosevelt buttons.

MOST of the campaign propaganda is prepared behind scenes by men recruited from newspaper offices and colleges. When a politician steps before a microphone these days you can be reasonably sure that he is reading the words of a ghost writer.

Masterminding the sensational stunts of the G. O. P. is Hill Blacket, a high-powered advertising man. His "idea men" are former professors and reporters. They're busy right now continuing their buildup of the Republican sweep in Maine.

Spare moments find them

to whom the selective sales tax shall apply. Each business or profession naturally feels that his line should be excluded, or that he should not be taxed to a greater degree than his neighbor.

A friend of the Governor has introduced a bill in which it is proposed that newspapers shall pay 1 1/2% of their gross receipts into this fund. The newspapers are listed along with the oil companies, sulphur companies and various other enterprises of Texas to pay the pensions. Just why the newspapers, both large and small, should be taxed while the hardware man, the lumber man, the dry goods man, the druggists, etc. should escape this special tax. The News feels quite sure that all newspapers wish to pay their just portion of the tax, but why be singled out?

We mention this only for the purpose of showing how unjust a selective sales tax works out. The News has long realized that a general sales tax will be impossible in Texas under the Allred administration, although we are firmly convinced that Texas is making a serious mistake in not joining the 33 states which have the general sales tax. The general sales tax is the only equitable method of paying the pensions and wiping out the nine million dollar deficit in the general funds. But the powers that be at Austin have decreed that it shall not pass.

We feel sorry for the legislators as they muddle through the tax fields of the state trying to pick here and there some industry, business or profession on which they can saddle this burden. It is not going to be an easy job.

A constitutional amendment to be voted upon in November would relieve the Governor of the vexing problem of pardons. A new pardon and parole board would be established, which would have practically full power to act upon this problem. There is probably no question which takes so much time from the Governor as the granting of pardons and paroles. This is true especially in capital cases when every effort is used to influence the Governor to grant clemency on the day set for execution. Giving this board the powers which the Governor now holds would certainly relieve the chief executive. It would also prohibit a recurrence of the disgraceful buying and selling of pardons which has been charged in times past in Texas.

The general election will be held in just 33 days. Not nearly so much steam has been worked up over the national election as was anticipated. According to the polls which have been taken, President Roosevelt seems to have the election safely tucked away, and therefore expresses no worry as to the results. Matter of fact, the election will hinge around half a dozen states, and it is in these states that both major parties will put forth their great efforts. The activities of the President during the coming thirty days will depend entirely upon the reports which are brought to him by the Democratic scouts who are out among the people.

It would certainly be a fine thing if all citizens of Canyon would clean up their premises. Fall weather always makes Canyon look at its very worst, with the dried grass, rank weeds, falling leaves. There will be thousands

thinking up anti-New Deal wisecracks for radio and stage comedians and laying out blackboards for any butcher who will display them in his shop. These blackboards purport to show that when you pay 45 cents for pork chops you're paying about 30 cents for meat and 15 cents for taxes.

CHARLEY MICHELSON, Democratic publicity maestro, has blinked his eyes at the revolutionary methods of the hitherto ultraconservative G. O. P.

Remaining outwardly unimpressed by the Republican barrage, he has frowned on billboards as too expensive. The opposition, he says, won't get its money's worth out of the billboards.

Michelson sends his weekly letter with cartoon service to small papers throughout the country. He likes pamphlets. Most popular of these with the Democrats are "Boondoggling," "They Hate Roosevelt" and "Candidate Landon vs. Governor Landon."

So far the Democrats haven't come out with any prize money for letters on "Why I Am for Landon." Republicans offered \$1000 for the three best "Why I Am for Roosevelt" letters in order, it is believed, to put their finger on the president's most potent vote-getting qualities.

Credit for this idea goes to publicist Benjamin K. Pratt. He and other Republican leaders say that after they find out where the president's greatest strength lies, they will "go out and beat him on his own ground."

Lemke Busy, Too

While the political spotlight centered on trips and speeches of President Roosevelt and Governor Landon, Representative William Lemke, Union party candidate for the presidency, also was active. Here Lemke is seen as he boarded a plane in Chicago for the Pacific coast where he made a series of campaign speeches.

of visitors in Canyon during the football season, and as good an impression should be made as possible upon these visitors. Speakers at the Chamber of Commerce dinner Thursday night stressed in particular the ragged conditions of the alleys in Canyon. Why not a real, honest to goodness clean up campaign right now?

If you do not like the American form of government, just consider some of the kinds under which other people are living. To denounce Hitler in Germany means death or long imprisonment; to speak a word against Mussolini in Italy makes you the worst possible insurance risk; to mildly criticize Stalin in Russia gives employment for the firing squad; so it goes in Poland, Rumania, Spain, Austria and elsewhere. In this country you can call the President anything you like and get away with it.

Those who were hollering about the heat of the summer and were wishing for cold weather, received their wish with interest over the week end. 39 degrees was the low record in Canyon.

Parsley, escarole and kale contain more vitamin A than does spinach, according to the New Jersey Dental Society. But don't tell Johnny they're good for him.

Students Enrolled
In Violin Classes

More than forty training school students, both in high school and in the grades, are participating in violin classes organized and conducted by Robert Axtell, of Amarillo.

The classes are small in order that the maximum work can be done with such a large group, and some individual work is being done. Mr. Axtell is also conducting a small class in Spanish guitar.

Some of the students have their own instruments, but a great many of the students are being furnished with instruments by the school. The classes have regular meeting periods, just as the other classes, and are treated as a part of the school curriculum.

"Without exception I find my students to be unusually eager and responsive," Mr. Axtell said.

Mr. Axtell is enrolled in the college here along with the work he is doing in the training school. He has studied with some of the most renowned violin teachers of America, notably with Samuel Gardner, of the Institute of Musical Arts, formerly known as the Damrosch Institute in New York. Before he came here Mr. Axtell was engaged in teaching violin in a private studio in Amarillo.

Gen. MacKenzie Has Gun Shown In Pioneer Hall

Congressman Marvin Jones of Amarillo and Wiley Fox of Dumas have just secured a gun for the Panhandle-Plains Historical Society. This gun was used by General Rannald S. MacKenzie on his campaign against the Comanches in this territory, during the tumultuous days of 1870-74.

The gun was sent from the United States War Department at Washington, D. C. It bears No. 19872.

Other reminders of Indian fighting days have been put on display in the same case with General MacKenzie's gun. They include a Congressional Medal of Honor, presented to Scout Billy Dixon for bravery at the Buffalo Wallow fight, Sept. 12, 1874. Mrs. Olive K. Dixon of Amarillo placed this in the museum.

There is a minnie ball gun, which was used prior to the Civil War. This came from J. Dan Archer of Spearman, who placed with it some bullet moulds, which rest beside a bullet ladle also from Mrs. Olive Dixon.

Once flintlock pistols were made with hexagonal barrels. Such a pistol, loaned by Ben R. Myers, Jr., of Amarillo, lies in the same case beside a sword from the J. R. Wilson collection placed in the museum by E. R. Richie of Stratford, and another type of gun presented by Ainsworth Gates of Claude.

The museum is open to the public every day and several hundred people visit it weekly. Many of the visitors later become donors of valuable relics or papers.

Consumer Co-ops in Spotlight Again as President's Commission Returns

TWO events are focusing renewed attention on the consumer co-operative movement in the United States. One is the return of President Roosevelt's commission which studied co-operatives abroad. The other is the tenth biennial congress of the Co-operative League of the U. S. A. in Columbus, O.

Add to these the surprising figures of a co-operative survey made by a New York newspaper and it is easily understood why the movement, far from being obscured by the presidential campaign, may come to figure as an integral part of the fall political scene.

The newspaper survey showed that the co-ops will do a total 1936 business in the United States of about \$500,000,000—a new record. While this falls far below the amount of business done by consumer co-operatives in England, Sweden, and Finland, it is enough to make observers realize that the co-ops have come to be a real force in America.

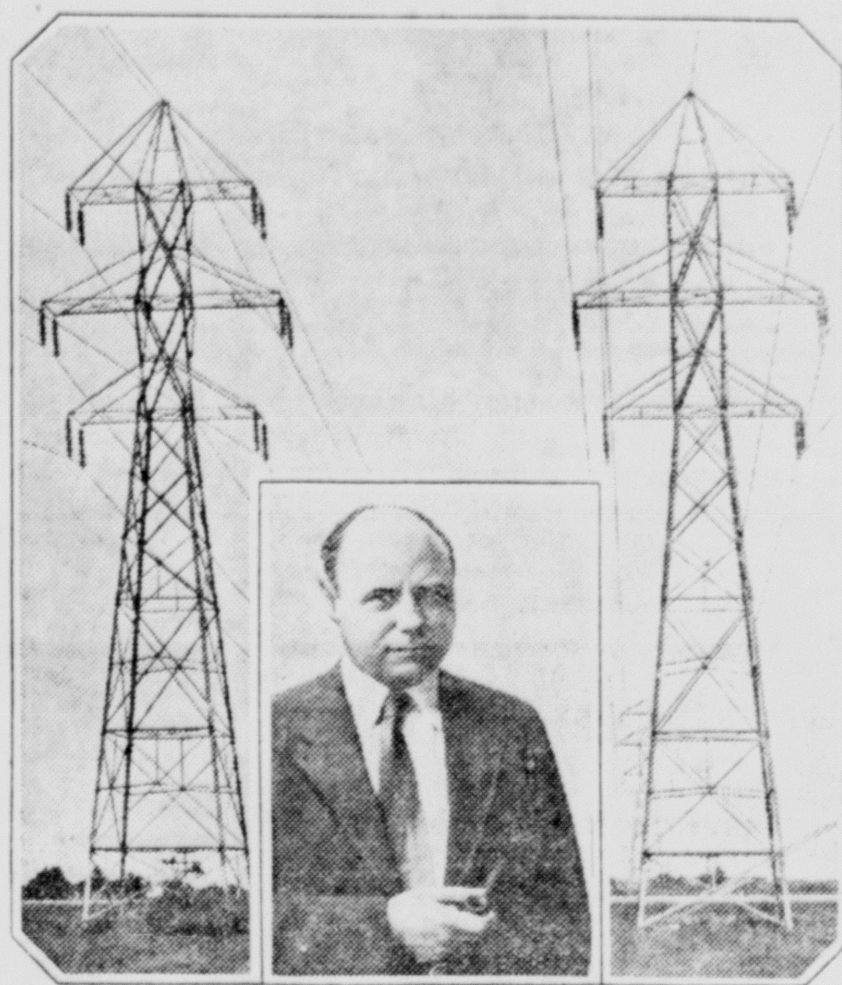

THE subject of consumer co-operatives has been politically taboo in the United States, the big reason being, of course, that no politician is anxious to take sides on a question of this type. Indorsement of the co-ops would alienate thousands of small merchants. Repudiation might bring unexpected reprisals, as the co-op movement undoubtedly has many more sympathizers than actual participants.

The Baker commission will offer its findings to the president. Mr. Roosevelt's advisers are understood, however, to be advocating extreme caution in indorsing the movement, at least until after November. It may be that the president will let the commission's report speak for itself.

Members of the commission are Jacob Baker, former assistant Works Progress Administrator; Charles E. Stuart, who served for two years as vice president of the Export-Import Bank and who has directed several large engineering projects in Russia; and Leland Olds, secretary of the New York Power Authority.

Fairview Breezes

The community is still water soaked. A few planted wheat Saturday, but they were stopped by rains Sunday.

Power lines such as those above will bring electricity to more and more farms if consumer co-operatives continue their progress in rural electrification. Jacob Baker, inset, is a member of the president's commission which studied European co-ops.

The commission's three-month study tour took it to Sweden, Norway, Belgium, Switzerland, France, and Czechoslovakia.

THE Co-Operative League, meeting in Columbus Oct. 8, 9, and 10, will take up every phase of the movement from art and architecture to insurance and finance. Special attention will go to rural electrification.

In many parts of the country consumer co-ops have worked to advantage with the Rural Electrification Administration. In instances where private utilities have refused to service power to rural electrification co-operatives, the co-ops have organized to generate their own power.

REA has approved 116 rural electric projects and has loaned

or earmarked \$21,400,000 for them. More than half the projects approved and an even higher percentage of applicants for loans have been co-operatives.

Although the co-op movement in the United States has been motivated for the most part by farmers, it is not confined to the rural areas.

In New York City there is the very ambitious Amalgamated Co-operative, comprised principally of members of the Amalgamated Clothing Workers Union. This co-op has built homes for members, runs its own buses, operates a laundry service and grocery stores and handles milk distribution. Its most recent undertaking was construction of an electric power plant.

Tops in Tennis After Comeback

Looking forward to new tennis worlds to conquer, Alice Marble, above, reigned supreme in the women's side of the sport after defeating Helen Jacobs in the national championships at Forest Hills, Long Island. Miss Marble had been considered definitely out of competitive tennis after collapsing in a match two years ago. Her victory ended the four-year reign of Miss Jacobs.

No Sweating of Walls

...No Expensive Redecorating

There are no open fires... no condensation of moisture

to sweat walls and ceiling... no soiled drapes and curtains when you heat your home with a Coleman Floor Furnace. You get heat that's healthful, clean and care-free. Saves decorating expense. Here are other reasons why you'll like it:

- 1 Warm floors all the time... no cold feet.
- 2 Warm healthful air... no oxygen taken from room for combustion.
- 3 No open fires, no unhealthy fumes... all the products of combustion are carried outside the house.
- 4 No waste of fuel... high heating efficiency gives you low operating cost.
- 5 Healthful circulating heat maintains even, comfortable temperature... no "hot spots", no "cold corners".

Investigate!

WEST SIDE CLUB WOMEN GIVE AIDS AND SUGGESTIONS

Mrs. Wm. Ash of the West Side Club made an interesting experiment with English peas in her garden this year and proved to her own satisfaction that it does not pay to plant late peas in this climate. She planted a double row 42 feet long in March. From this she gathered 12 gallons of well developed full pods, and from this planting she canned the pint jar that won the first place at the Tri-State Fair. Four weeks later she planted a row of the same length and gathered only 4 gallons and the peas were irregular, scrawny, and the pods were not well filled.

Mrs. Joe Baber
To freshen stale pecans, pour boiling water over them and allow to stand three or four hours. Drain the water off and allow to dry thoroughly. If you do not have a regular sheller, stand on end to crack and the kernels can be picked out whole. This suggestion was sent in by Mrs. Joe Baber of the West Side Club.

Mrs. E. N. Zachry
Mrs. E. N. Zachry of the West Side Club made a record at quilting during the past year. Alone she pieced eight quilts, quilted six and tacked two comforts.

Mrs. J. E. Hunter
Probably no woman in the county cans more fruits and vegetables or takes greater pride in canning for the family, than does Mrs. J. E. Hunter of the West Side Club. Here is her record for cucumbers this year. She planted 28 hills of a pickling variety about four feet apart. In spite of the drought and pests she canned 150 quarts of pickles. About 12 gallons were brined and the others were made into many varieties of pickles, such as dill, bread and butter and sweet pickles.

Mrs. W. C. Roberts
Leaky milk pails with handles removed make attractive waste paper baskets or hampers for the bathroom and kitchen. Paint or enamel them to match the room in which they will be used. You can buy a small stencil design, or if you are artistic, a design of apple blossoms, wild roses or tulips may be added. This idea is contributed by Mrs. W. C. Roberts of the West Side Club.

Mrs. B. A. Burrus
An article that attracted much attention at the county exhibit and also at the Tri-State Fair was a small boy's suit made by Mrs. B. A. Burrus of the West Side Club. A discarded suit given her by a member of the family was ripped, turned and pressed neatly. By careful scheming and cutting an attractive suit was made. Eight tailored pockets, even an inside coat pocket, were a delight to a small boy's heart. To complete it and give it a really tailored look, Mrs. Burrus took it to the cleaners and had it steam pressed. The total expense for this good looking little suit was only 40 cents for pressing and 5 cents for thread.

'Electric Chair' for Chickens

Seeking a more humane method of preparing poultry for market, two San Francisco technicians have developed an electric device to kill chickens, turkeys, geese and squabs. The picture above shows the new machine doing its job as an operator points out how the chickens, suspended from a moving belt, their legs pinioned in wire clamps, are killed as their heads are pressed against electrodes. The machines have from 1000 to 1500 volts, according to the size of the fowl to be killed.

Wal, I haven't heard anything about Miss Goodrich in a long time; I guess she's forgotten us but we'll never forget you, in case your hearing me.

Natalie shore did look cute a marching in front of the girls at noon, but she was defeated for drum major by Sweetie McNeil; do best and better, Sweetie.

If you were in town Saturday you probably saw them purty gals with them high hats, meaning those purty purple and white military caps; and here's some more about those pep squad gals: be on hand in town Friday and watch them rat-a-tat-tat to back the Eagles.

Herbert and R. E. know something about Betty Ruth; a ring on her left hand and on the second finger. (It's a hint.)

If you ever want to know anything bad about the teachers, like being tardy, just look on Mr. Pope's bulletin board.

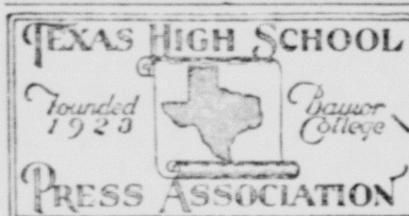

Mr. Moore, you nearly had me skeered to death in public speaking when you got religious like a Negro preacher Monday.

Hud, you had better not start playing football in the hall; Mr. Carruth won't like it. You better practice on the field, though, because you junior football players better win every game you play.

Eagles, I shure want to say I don't care how bad you got beat at Panhandle. I know you must not have been hitting or you'd beat those Panthers 50-0. I'm putting all my money on you winning the game tomorrow night; so I know you'll do it.

Knock, Knock!
Who's there?
Dumas.
Dumas who?
Boys Do Mus roll those Demons in the sod.

So long, Cactus.

COME OUT! COME OUT!
COME OUT!

Although the Eagles did get the smaller end of the score at the Panhandle game, we want them to know that we are still proud of them because of their sportsmanship and that we are still willing to come out and back them 100 per cent. We would also like to commend the pep squad for keeping up the Eagle spirit all through the game.

Even with these two fine organizations doing their best, we cannot help but feel hurt at the behavior of other students at the game Friday night.

Since tomorrow afternoon is our first home game this season, the first game for the band to play at this year, and the first time for the drum corps to perform, we believe that the Eagles cannot possibly come up losers.

With all these organizations, the Eagles, pep squad, drum corps, and band, and a 100 per cent backing by the townspeople and the students, we believe that Canyon High School will surely come out tomorrow afternoon with its banners waving.

So, let's come out full force tomorrow night and back the Eagles!

SCHOOL SONG

Our hearts are filled with gladness
And pride in Canyon High.
We'll play the game the live-long day;

Dishonor ne'er comes nigh.
We'll spend our lives in serving,
For she has taught us how;
And here's our pledge:
We'll give our best

For Canyon High School now.

(Editor's note: For the benefit of the new students and the old students who have not yet learned the School Song, we print it, in hopes that you will memorize it.)

GIRLS BASKET-BALL BEGINS MONDAY

CAPTAIN MARY COLLINS WILL LEAD SIX LETTERMEN AND OTHER PLAYERS TO BE COACHED BY GERALD BROWN

The Eaglettes, under the direction of Coach Gerald Brown, will start basketball practice next Monday afternoon. The girls, who are starting earlier than usual this year, plan to practice two weeks, rest one week, and then have a few more weeks of hard practice before the invitation tournament at Canyon, to be held early in the fall. This will be the first invitation tournament held here in several years.

The girls had a successful year last year, under the coaching of Mr. Brown, who this year teaches civics and history in high school. He is also assistant coach of the football team. The woman sponsor of the team will be chosen next week.

The Eaglettes, who lost only two players last year, will be lead this year by Mary Collins, senior and editor of The Eagle's Tale. The lettermen who will be back are Kate Donnell, Rena Beth Bellah, Carolyn Mayfield, Billy Greenfield, Edrie McNeil, and Wanda Brock. Other players who did not letter but who will be out for practice are Natalie Flesher, Mavis Harden, and Dell Bagley.

A large group of freshmen will also be out for basketball this year.

Moore's Writings are Given Recognition

"I like to scribble," replied Mr. H. G. Moore, teacher of junior high school English and public speaking, when asked what he liked to do.

Mr. Moore writes plays, poems, and short stories; at present he is specializing in the short story. While an undergraduate at Texas Technological College at Lubbock, he placed in a state contest with a poem "Heritage." Later he won recognition with short stories, two in national contests. His stories received honorable mention in competition with those of both professional and amateur writers.

"I hope to be successful as a writer of plays and fiction," said Mr. Moore.

Mr. Moore was born in Jones County, near Merkel, and attended high school at Denton. He is married and has two children, Stanley Gene, age three and one-half, and Patricia Dell, sixteen months. Last year he taught at Olton.

GUESS WHO

Silver-rimmed glasses over light brown eyes,

Her hair is dark brown without even a curl,
She's a basketball player, and a country girl.
Answer to last week's "Guess Who"—Herschel Burrus.

Edrie McNeil Will Lead
Drum Corps As MajorGirls Start Insane
Asylum With Cans

Are those girls of the pep squad really drumming, or are they just trying to disturb the peace?

One night last week, a faculty member who lives in the same neighborhood with Mildred Shuman had to call out the window and tell Mildred to stop beating on a tub and go to bed. Really, Mildred didn't mean to disturb anyone; she was just trying to learn how to beat one of those new drums the pep squad received this week.

Athalie Overton, a student, says, "I wish that little girl across the street would stop beating on a bucket; she's running me crazy."

But just be patient, everybody, until next Friday, and those girls will show you how to beat a real drum instead of a tub or a bucket.

Ex-Eagle Coaches
Junior Team

Lavert Avent, first-string letterman of last year, is coaching the Canyon High School junior team. Tommie Butler, a sophomore, is assigned the responsible position of quarterback. Tommie weighs 125 pounds.

Billy Joe Hunter, a freshman, holds the position of left half-back.

Candidates for right halfback are Hud Prichard and W. J. Wooten, both freshmen. Hud weighs 109 pounds, and W. J. 111 pounds.

Charlie Gerald holds the position of fullback. He is a freshman and weighs 138 pounds.

The left-end position is held by tall Jack Sanders. Jack is a freshman and weighs 154 pounds.

The right wing is filled by Glenn Burrus. Barnett Ball also plays right-end substitute. Barnett weighs 130; Glen, 128.

Glen Campbell, a junior, holds the position of left tackle. Glen weighs 131.

Doyle Neff plays right tackle. He is a junior and weighs 132.

Billy Frick, a sophomore, plays right guard. He weighs 132.

The center position is held by Clarence Zachry. He is a junior and weighs 131.

Substitutes are Robert Bellah, Rayburn McKee, and Leff Clouch, all freshmen.

HIGH SCHOOL RECEIVES
NEW BOOKS

New books have been received in the book room each day since school started.

These new books include texts in Bible, seventh-grade English and geography, civics, eighth- and ninth-grade English, eleventh-grade literature, public speaking, plane geometry, junior business training, and journalism, as well as various work books.

Miss Jewell Foster says that some of the seventh-grade arithmetic books and some typing books are yet to come.

Home Ec. Members
Take Oath Thurs.

Formal initiation of new members of the Home Economics Club took place last Thursday evening, in the home economics room of the Canyon High School.

Following a knock on the door, twenty-three pledges entered the room and asked to become members of the club. After a pause and another knock, Viola Dooley, the Spirit of Home Economics, entered the room. Each new member was given a small candle, which she lit from a large candle. The new members then took the home economics oath.

Refreshments of punch and cake were served to the following guests: Pauline Spencer, Edith Neff, Iris Dooley, Georgia Bell Dowd, Mildred Lindsey, Mary Eleanor Sanders, Mona McNeil, Lela Mae Carr, Fern Waters, Beatrice Burrus, Anna Ruth Schmitz, Myriel McClelland, Dorothy Jean Heath, Eula Bell Lovejoy, Gertrude Miller, Doris Marie Ball, Mary Zachry, Mary Jo Avent, Mildred Tucker, Nora Lee Brazil, Sunshine Harden, Polly Cluck, and Lucille Davis, new members; and to Mildred Shuman, Marielle Oldham, Beulah Brasuel, and Billy Greenfield, old members.

Jack Neil Jennings and Wandell Johnson visited high school Thursday afternoon.

Miss Mattie Jordan spent the week-end with her parents, Mr. and Mrs. G. J. Jordan, in Tulsa.

Edrie McNeil, sophomore, was chosen last Monday as drum major for the pep squad drum corps. The faculty acted as a committee to select the major. Edrie was class president when she was a freshman, and takes an active part in basketball, pep squad, and the Home Economics Club.

Natalie Flesher, junior, was the other girl trying out for drum major.

The pep squad's new hats were received last Saturday. They are military bell hop caps, northwest-purple trimmed in white. The caps were ordered from Dallas through the Peoples Store.

The pep squad also received eleven drums at the first of the week. Members have been trying out this week to see who will be in the drum corps.

Panthers Defeat
Fighting Eagles

The Panhandle Panthers defeated the fighting Eagles 44 to 0, at Parr-Dheal stadium Friday night, in the second combat of the season.

The Eagles kicked to the Panthers, who returned the ball about twenty yards. A surprise punt put the Eagles well down into the Panthers' territory, where the locals made a first down. Unable to make another first down, Odell Miller kicked the ball out of bounds at about the forty-yard line. The Panthers made two first downs; then Smith, a back for the Panthers, ran about twenty yards for the touchdown.

Four more touch downs for the Panthers were made by Captain Sparks and Smith, Sparks kicking one extra point in the first half. The Eagles fought hard but were unable to stop the perfect running Panthers.

Starting the second half of the game, the Panthers kicked to the Eagles; Fairy Hill received the kick and return the ball about twenty yards. Unable to keep possession of the ball, the Eagles kicked again. After making several first downs for the Panthers, Captain Sparks made the sixth touchdown.

The Eagles again received the kick. A pass was intercepted by Crawford, who took the ball to the Eagles' 32 yard line. Two first downs were made before Captain Sparks, Panthers' Pride, made the seventh touchdown on a play and kicked the goal.

Captain Sparks was the Panthers' star, making five out of seven touchdowns and kicking two goals for the extra points that were scored. Smith, another star for the opponents, scored the other two touchdowns.

Melvin Calliham, center for the Eagles, did some very excellent playing Friday night, as did D. A. Butler and Fairy Hill.

WHY MISTREAT YOUR BEST
FRIENDS, THE BOOKS?

When you have a true friend, do you turn against him, or do you try to help him? You do not mistreat him and neither do you do anything to hurt him. Then why do you misuse your books, the truest friends you have?

What would a history student do without a history reference; an English student without a book of fiction, biography, prose, or poetry? Why throw the book on the table and give it a slide when it is just as easy to place it on the table when it is turned in? Don't use the book for a utility kit or a purse.

Let us all treat our books in a friendly way and show some appreciation for the service we get from them.

SAY ARE YOU GETTING
MARRIED?

"Say, are you getting married?"
Maybe D. A. Butler isn't getting married, but everyone sure is interested in his welfare; at least a dozen people asked him Sunday:

"Say, are you getting married?"
Just like bread goes with butter, bedroom suits go with getting married. Which explains it all, last Saturday night at the Olympic Theatre D. A. won a four-piece bedroom suite with two rugs, a lamp and a scarf.

When Charles Donnell called out the lucky number, D. A. said, "Well, I'll get her now." Whether he has slipped off to Clovis or not, no one seems to know.

DOGS VOTE IN ATHENS,
ACCORDING TO SOPH

Last week, Miss Jewell Foster's history class was discussing the voting in Athens.

Miss Foster used the slang expression that in Athens, everybody and his dogs voted. Later in the period, she asked Carol Dooley the difference between the voting in Athens and in America.

"Well, in Athens the dogs vote, and they don't here," replied Carol.

CAL FARLEY
SPEAKS TO
P. T. A.

TELLS ABOUT TRIP TO EUROPE TO FIRST PARENT-TEACHERS MEETING; SOCIAL AFTERWARDS IN GYMNASIUM

"Since the world war, many people who have visited Europe say that there is nothing left to show that there was a war, but one that was in the war can see its traces. Many buildings have been rebuilt, but they cannot be built as they were before, and in a few places one will see the old trenches and dugouts," began Cal Farley, as he spoke to the Parent-Teachers Association last Monday night in the high school auditorium.

"In Versailles, John D. Rockefeller, Jr., is keeping up the gardens and cathedral.

"Between Chateau-Thierry and Paris is a statue which was erected by American school children after the war. Chateau-Thierry has been rebuilt so that one can hardly tell it was ever damaged.

"In many places through Europe are cemetery and monuments dedicated to American soldiers. Each cemetery is taken care of by an American who married a French girl.

"Hitler is so popular in Germany because he took hold in the time when it was necessary that they have a leader and ruled with an iron hand. The German people are behind him 100 per cent. They use a boulevard system of highways. A car can get on this highway at only every six miles. No one in Germany wants war. They are just preparing their army in case they need it.

"Switzerland is in reality a very very beautiful park. It is still on the gold standard.

"In England everyone drives on the left hand side of the road. London is very beautiful, but the people do not welcome you as in Germany. London has wonderful suburbs in which there is very good air.

"The style center really belongs in New York instead of Paris. The wall around Paris which was there during the war, has now been torn down, instead there are many apartment houses.

"In Europe, gas is 70 cents a gallon, and oil is 80 cents a quart. A dollar a day road tax is charged in Belgium," concluded the speaker.

Mrs. Lee Foster, music director in the high school, played two musical numbers. Mrs. Dan Sanders, president, gave a welcome. Mrs. Dewey Foster read the following announcements: The study club will be continued through the following school year with Mrs. Ray Campbell as its chairman. Mrs. H. A. Brown will be the leader of the mother singers. Mrs. Alfred Bellah is chairman of the membership committee. A \$300 prize is to be given to the room which has the largest number of mothers in the Parent-Teachers Association. The annual carnival will be held next month. It has been decided definitely that the Parent-Teachers Association will be held the fourth Thursday in each month.

Following the program refreshments of sandwiches, cookies and coffee were served under the direction of Mrs. Felix Neff.

Quattlebaum Talks
To Assembly Mon.

The Rev. J. O. Quattlebaum, pastor of the First Methodist Church, spoke Monday morning at 9 o'clock at the regular assembly. In his address, he stressed loyalty to home, to school, to nation, and to church. The speaker was introduced by Supt. I. B. Carruth.

Presiding the main address of the hour, Mr. R. G. Stephenson directed the group in singing several songs. Mrs. Lee Foster was pianist.

A special assembly and pep rally was held last Friday afternoon at 3:30 o'clock, preceding the Panhandle-Canyon game. A number of pep songs were sung, and Coach Hutto, Assistant Coach Brown, and Captain Jack Middleton gave brief talks about the possibilities of the game and what the team did the past week.

In assembly yesterday afternoon, the student body discussed the Student Council for the coming year.

THOUGHT OF THE WEEK

Don't be afraid of those from below; your job is to keep on climbing.

Billy Louise Greenfield spent the week-end in Panhandle with Lola Pearl Cox.

Hudson Prichard, freshman, spent the week-end in Dallas at the Centennial.

Miss Jewell Foster spent the week-end visiting relatives in Hale Center.

Eagles And Demons To Clash
On Buffalo Field FridayHigh School Girls
Turn Janitress

Books, magazines, and clothes covered the divan, bed, chairs and floor.

"When was this room cleaned last? Didn't it get a spring house cleaning?"

"Oh, it was cleaned about a week-and-a-half ago by Coach Hutto with the help of Coach Brown."

Margaret, Sweetie, or Mary Bourn said the first and Miss Eastus the last, as they cleaned Miss Eastus's room last Saturday morning.

All the high school girls have raved during the past week about how "cute" the "little brother" is. "Why, he has blonde curly hair; he's short, and oh, the cutest thing you ever saw, and he has been in McMurray's band; and did you see Miss Eastus's twin? She is so nice-looking and she looks exactly like Miss Eastus."

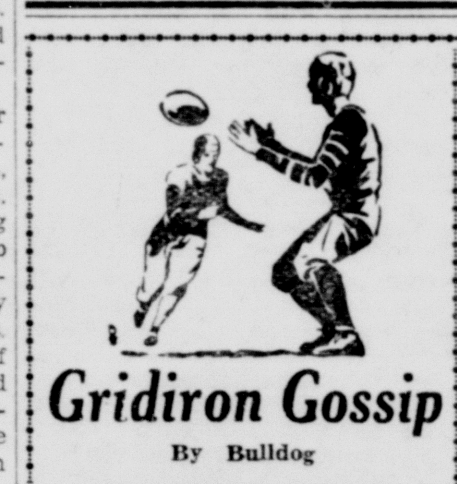

Don't get excited, now, the girls really haven't fallen in love with "Mr. Eastus." He is only six years old and he was once mascot of the McMurray Band. Miss Eastus's twin happened to be herself, but the Canyon High girls really bit hard.

Rings Selected By
Seniors Thurs.

Seniors selected their rings last Thursday at noon. Thirty-four rings will be ordered in the first order; the remaining forty-seven will be ordered later.

The class chose a gold ring with a square, green gold top. An attacking eagle is in the center of the square, with the word "Canyon" written above the eagle and the letters "H. S." below. The ring will have a wide band.

The class also chose their commencement announcements, of heavy white stock, with the ring emblem engraved on the front. Both the rings and the invitations are ordered from the Star Engraving Company of Houston.

The Eagles are offering no excuses for the loss last Friday night. They met a bigger and better ball club and are not ashamed to admit it. Pat Gerald has been pointing for that game ever since our win over them last year.

I wonder how Melvin Calliham felt when he was calling signals from center position in the Panhandle game? According to him, he now appreciates what the quarterback has to do.

Last Wednesday when "Bot" Rusk and Herschel got to football practice late, the following conversation occurred:

Coach: Where have you been, boys?

Herschel: Amarillo at the fair.

Coach: Weren't there any cars coming back?

"Bot": Yes, but we weren't in them.

Coach: Why didn't you tell them you were Canyon Eagles?

Jimmie (Bright Boy) Pope: That wouldn't make any difference; they would have told "Bot" and Herschel to fly to Canyon.

Since the Panhandle game the boys have been cleaning up their playing suits for the game tomorrow night with Dumas. They certainly needed it.

Prentiss McKee, sports critic of Canyon High School, states that the Eagles will win over the Dumas boys. He also urges all girls of Canyon High School to place their bets 5-1 for Canyon.

Mrs. John Davis, arithmetic teacher in the elementary school, suffered a sprained ankle the first part of the week.

FOOTBALL SCHEDULE

Oct. 2, Dumas at Canyon.
Oct. 9, Perryton at Perryton.
Oct. 16, Claude at Claude.
Oct. 23, Tulsa at Canyon.
Oct. 30, Happy at Canyon.
Nov. 6, Dalhart at Dalhart.
Nov. 13, Hereford at Hereford.

The flying Eagles will battle the Dumas Demons tomorrow afternoon at 3:30 o'clock on Buffalo Field.

This is the Eagles' first home game of the season, the other games being played in Lefors and Panhandle. The Eagles held Lefors to a score of 0 to 0, while Panhandle defeated the locals with a score of 44 to 0. This defeat did not dishearten the Eagles, however; they have more spirit than ever and are ready for the Demons tomorrow afternoon.

Coach Hutto has been putting the boys through a great deal of defensive drilling during the last week, and they are expected to be in perfect form for the coming battle with the Demons.

Units Started In
Grade School

Activities from finding out about pets to building a historical museum occupy the time of the various grades in the elementary school.

Mrs. T. W. Collins' first-grade class is studying pets and homes. A trip was made recently to the home of George Pain Black to see his rabbits. George is in the fifth grade.

Mr. Gordon Beck's fifth and sixth grades are collecting articles for a small historic museum they are planning. A theater is being constructed, and everything that will be used is to be made by the pupils.

The third and fourth grades, under the supervision of Miss McClanahan, are working on a transportation-communication unit. Research is being done on both phases of the unit.

Mrs. Lee Beason's second grade is working on a unit which includes ships and vacation study.

Mrs. Carl Scott's fifth and sixth grade are classes are lettering and making posters. The class plans to make and decorate wall hangings of muslins and rags. The classes request that anyone who can contribute unbleached muslin or old rags do so.

Miss Belva Cain's fifth grade class is planning an imaginary trip over the United States in their geography class.

Librarians Meet
Last Thurs.

Student librarians met Thursday afternoon at 4 o'clock in the library. Miss Mattie Jordan, librarian, talked on how a librarian should feel toward the library and how librarians should work in one united body. She gave the librarians one high ideal: to treat every child alike. She went over the routine for librarians, and gave them helpful points.

The group later adjourned to the home economics room, where watermelon was served by Miss Jordan to the following: Margaret Stewart, Natalie Flesher, Betty Jo Black, Mildred Shuman, Billy Black, Sanford Black, Willard Childers, Mary Jo Avent, Annie May Spencer, Sarah Thompson, Marielle Oldham, and Helen Hurst.

POLLY LITTLE ENTERTAINED
OVER THE WEEK END

Polly Little, a former student of Canyon High School, and a present student of Panhandle High School, visited in Canyon over the week-end.

Saturday night she was entertained with a slumber-theater party at the home of Mary Collins. Sunday she and her friends were guests at a dinner at Kate Donnell's home.

Those present were Mary Collins, Mary Catherine Wirt, Kate Donnell,

Bufs Wallop Miners Friday In Hard Game

Waggoner Falls on Ball Last Minute of Play For Winning Touchdown Against Miners

Toby Waggoner, nervy and glamorous Buffalo wingman, emerged from a maze of linemen with a fumbled ball in the Miners' end zone in the final 30 seconds of play to score the deciding tally to give the West Texas Buffaloes a 13-7 win over the Texas School of Mines of El Paso in Buffalo Stadium, Friday night.

While the 2500 spectators yelled their approval of the aggressive ruggedness of the Buffalo forward wall, Head Coach Al Baggett, who suddenly became ill Thursday, watched the game in silence from the sidelines. It was feared that he would be unable to attend the game. Line Coach Marshall May assumed charge. The Buffaloes were almost demoralized when Hinger, a regular guard, did not recover for the game. Captain Jackson and Waggoner were not expected to participate.

Fields Performs Admirably
Fields, replacing Hinger at guard, performed admirably as he and his running mate, Monroe Horton, habitually sifted through the Mucker forward wall to check the Miners' onslaught. In spite of his condition "Iron-man" Waggoner played one of his greatest defensive games of his colorful career.

Poster Watkins' scintillating 44 yard return of Moore's punt was the highlight that paved the way for the final score. Catching the kick on his own 45 yard line, Watkins eluded two would-be tacklers and followed superb blocking to the 11 yard line where he was chased out of bounds by Center Arnold, the Miners' defensive standout. He then crashed to the five. Walling's attempted field goal was blocked and the Muckers recovered on the 6 yard line. On the next play Mike Balenti attempted to run, and was smothered by a horde of Buffalo linemen and fumbled. In the ensuing scramble, Waggoner hurled his 190 pound frame on the pigskin for the counter.

Bufs Score Early
The Bufs made their first count early in the first quarter when Watkins returned Moore's punt from the Muckers' 40 to the 28. He then stepped back and passed to right end Vernon Johnson who was checked on the 5. Here the Bufs were assessed a 15 yard penalty. Lyde skirted right end for 10 yards and a first down. Waggoner and Watkins combined to carry to the three from where Fullback Dow crashed right tackle to score standing up. He then converted.

Featuring the tricky reverse formations typical of a Saxon produced club, the touchdown brothers, Mike and Dick Balenti unleashed a spirited running attack that swept the lethargic Buffaloes off their feet in the third canto. The break came when Watkins fumbled on the Miners' six yard line.

It appeared that the Bison Herd would sustain this misfortune when

Many Coaches Are Directing From New Sidelines as Grid Campaign Opens; Martin Sees Tough Spot for Harry Stuhldreher

BY PHILIP MARTIN

MANY big name football coaches have changed base of operation for the 1936 season and an equally large number of assistants have moved up to full command.

One of the best known gridiron strategists to switch locale is Harry Stuhldreher. Stuhldreher, who first won fame as one of the immortal Rockne's Four Horsemen, is sitting in the driver's seat at Wisconsin. And Wisconsin has her share of talkative alumni in the back seat. Add to this the fact that Harry will send his charges against such teams as Minnesota, Marquette, Notre Dame and a few of the Big Ten machines and you have some sort of an idea of what this young man faces.

Stuhldreher did a good job at Villanova and should, given fair material, brighten the Wisconsin picture.

GLOOMY Gil Dobie has finally left Cornell to become the head man at Boston College. Dobie in recent years simply did not get the material which used to turn up at Cornell. Naturally, his teams slipped out of the win column. Old grads charged that Dobie failed to keep up with recent football developments.

What they meant, of course, was that he was continuing to drill his boys in the fundamentals of straight football instead of experimenting with fancy spinners and complicated forward and lateral heaves.

Carl G. Snavely will assume the Cornell helm. Snavely turned out one of the most impressive teams in the nation last year at North Carolina, and he can be depended on to get the most out of the material at his disposal this season. Ironically enough, for the first time in several years, Cornell's material can be rated as A-1. Had Dobie hung on for another season he might have gone places with this new crop of sophomores.

North Carolina is banking on Raymond "Bear" Wolf to keep the Tar Heels on the victory mark via the air route. With Texas Christian since 1927, and head football coach since 1934, when Francis Schmidt went up to Ohio State, Wolf has proved himself an authority on matters pertaining to line coaching.

And in addition to presenting a hard-smashing forward wall to the enemy, he will keep the opposition up in the air looking out for passes of all varieties.

A FORMER Notre Dame tackle has taken charge of football affairs at Santa Clara. He is Lawrence T. Shaw, who left South Bend back in 1922 with three varsity letters in his poke to spread the word of Rockne as assistant coach at Nevada.

A long jump in 1924 took him over to North Carolina State where he ingratiated himself with the alumni and student body when his team wiped up on Duke, then coached by Howard Jones. Nevada lured him back as head coach and there he stayed until 1929 when he switched to Santa Clara as assistant grid tutor.

About a dozen years ago four young football players, to be forever known as the Four Horsemen, were making gridiron history at Notre Dame under Knute Rockne. One of these boys was Harry Stuhldreher who finds himself today in the head coaching spot at Wisconsin one of the country's great institutions of learning—and football. Stuhldreher is seen above as he looked when he was punting for the Irish and, in the inset, as he appears today, a big-time football coach.

Walter P. Steffen tossed over his job as advisory coach at Carnegie Tech after the 1932 season for a political career—he's a real, honest-to-goodness judge. But he has returned to the Skibos this fall in the same capacity as before, this time advising Head Coach Howard Harpster, whom you will best remember as a 1928 All-America quarter for the Tartans. Steffen is generally credited with popularizing the spinner play.

J. P. Smith moves up from assistant to head coach at Duquesne, as does Frank Dobson at Maryland. Ernie Nevers will hold sway at Lafayette. He assisted "Tiny" Thornhill at Stanford in 1935.

W. T. Calves Lose Second Game of Season To Groom

On historic Butler Field in Amarillo, the West Texas High School Calves received their second defeat of the season last Friday morning 27 to 6 at the hand of the heavier and more experienced Groom eleven.

Long passes were responsible for two of the Tigers' counters.

The lone tally for the Calves came early in the final quarter when Johnny McBroom, burly half back from Canyon intercepted a wild pass and cantered sixty-five yards for a touchdown.

Groom flashed a brilliant offence in the first division to score twice. Wilson, Tiger quarterback, carried the ball over for the first counter, and a pass, Wilson to Blackwell, was completed over the goal line for the second score.

Taking to the air in the second quarter, the Tigers scored when Neimo caught Wilson's pass and carried the ball ten yards for pay dirt. Wilson scooted seventy yards on an end sweep for the final Groom counter in the third quarter.

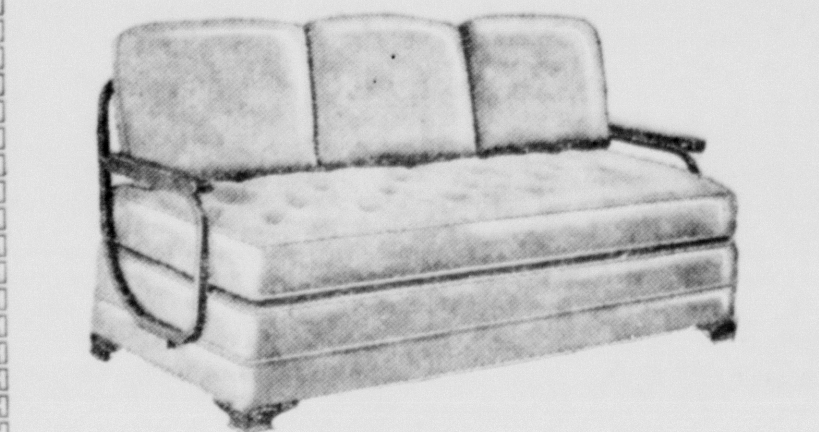

Sorgee, Canyon signal barker, Butler, full-back, were outstanding for the Calves, and Whitman and Patterson turned in stellar performances in the Canyon line before they were forced from the game in the second quarter on account of injuries.

As Strikers Halted Lettuce Trucks

The above picture was typical of many scenes throughout the Salinas valley in California as 5000 striking lettuce workers sought to make their strike effective by tying up transportation of the perishable vegetable between fields and refrigerated storage houses. Stones were thrown through truck windshields and kerosene was poured on the lettuce. Striking employees said the million-dollar lettuce crop, which forms the basis of the nation's salads, would spoil unless moved to market soon.

In 1915 the plant value was \$126,000; now the value is ten million. The company has 293 employees, with 10 men in Canyon. The payroll annually is \$200,000. Rates have been reduced in every town when local plants were taken over by the utilities, making a saving of more than one and one-half millions to the consumers. The Tucco plant has a capacity of 10,000 h. p. and is built for an ultimate load of 60,000 h. p.

The company has paid local taxes amounting to \$522,600 from 1928-33. It pays \$15,000 federal taxes annually. 13 cents of every dollar taken in goes for taxes.

The Rotary Club voted to join the Chamber of Commerce and College in sponsoring Canyon Day at Fort Worth on Oct. 13. A committee to arrange the trip is composed of W. A. Warren, Clyde Warwick, Joe Hill, Irby Carruth and Clarence Thompson.

P. A. Zimpher of Amarillo was a visitor at the luncheon.

Mrs. T. V. Reeves was in Childress Friday and Saturday. On Friday she gave a book review for the Childress Department Club, and on Saturday was speaker on the opening program of the American Association of University Women.

Prof. Wallace R. Clark will go to Electra tomorrow. He is to be the principal speaker at a meeting of the North Texas Music Teachers Association.

Tierra Blanca Dam

(Continued from page one)

John Knight, J. W. McCrerey, and A. E. Brown. County Agent W. H. Upchurch believed this site possible of creating one of the largest lakes in Texas.

County Commissioner G. B. Heath stated that he had been dreaming of this lake for a number of years. As a contractor he has visited practically all of the dams in Texas, and believes the possibilities are the greatest in Randall county. Irrigation and recreation would be the aim of such a lake.

Give People Water

The Amarillo Lake was condemned by several persons, due to the fact that it merely stopped the flow of water and no provision is made for furnishing water to the people below it.

Clyde Warwick believed that such a dam would fit into the program of the government in soil conservation. Daming creeks to hold the water and to prohibit soil erosion was encouraged by the government.

H. W. Harden saw visions of a great park which would draw thousands of people. It would be more attractive than the Palo Duro State Park since it would be a water resort.

G. W. Cox, C. N. Plaster and others approved the plan as something worthy of consideration.

Mr. Warren stated that immediate steps would be taken to see what could be accomplished, and

that another meeting would be called as soon as some definite information was accumulated.

pearance of our homes is an index of our characters," believed Rev. Quattlebaum.

Better Lighting Needed

J. B. Morrisset advocated the policy of business firms "Lighting for profit." Strangers turn to the stores which are properly lighted.

In urging that better lighting be used in business houses, Mr. Morrisset stated that alert merchants had found that proper lighting means: Avenue of selling goods; stimulating demand for goods; gaining higher respect of the public.

Tells of Trees

T. M. Moore told of the highway tree planting project which was underway at the college farm north of Canyon. All of the trees which are used in this division by the highway department are being grown at the farm. It is planned to expand the three planting program and start trees here for several highway divisions.

Mrs. Lee Foster played two piano solos, and Houston Bright sang a group of solos.

Tells of Schools

Supt. Irby Carruth spoke on the co-operation between the schools and the town. The schools are the greatest asset of Canyon, and should be stressed in its publicity. There should be a closer relation between the town and schools. The better acquainted the people become with the schools the more useful the institutions become for the city.

Mr. Carruth urged a closer relationship between the town and the teachers in the institutions. It has been charged that the teachers are not as loyal to the business firms as they should be, but it is

often because the business men make no effort to become acquainted with the teachers.

Getting together and working together will cement a better relationship.

Mr. Carruth asked for co-operation in putting over the consolidation of more country schools with Canyon, and believes this is a fine way in which to cultivate a friendly relation with the farmers of the county.

City Park Needed

S. H. Condron discussed the need of a large city park where all members of the family could go for picnicking and recreation. Mr. Condron told of visits he had made to parks in towns of other states and what these parks had meant to the people. Elwood Park in Amarillo draws people from Canyon and surrounding towns because it is a beautiful and pleasant place to spend the evening.

Cultivating a sense of beauty among the people is very important, stated Mr. Condron. Parks will give one of the finest means of advertising Canyon as a good place in which to live and to make a home.

Mr. Condron discussed briefly the need of a dam on the Tierra Blanca and believed that it would be the greatest drawing card that Canyon could possibly have in years to come.

T. C. Thompson was called upon to close the program, and urged that the citizens get behind the Chamber of Commerce in the worthy program. "If the people of Canyon will go forward as a unit, we can accomplish great things during the coming year," stated Mr. Thompson.
